## Message from the Organisation Committee

The IFMAR World Championship 1/8<sup>th</sup> IC Track to be held from August 13<sup>th</sup> until the 23<sup>rd</sup> is organised by the club Mini Racing Ticino and Moesa MRTM and in co-operation of the Switzerland Federation Swiss R/C Car Clubs Association SRCCA.

For this event the track in Lostallo in the South of Switzerland has been selected. The track is distinguished to be the longest and fastest track with generous premises in Switzerland and one of the biggest well know track in Europe. A lot of international events European Championship and a World Championship with EFRA and IFMAR compliance have already been held in responsibility of MRTM in the recent years, so the organisation committee can guarantee an improved experience with this performance licence.

We are proud of having the occasion to carry out one of the biggest event - the 1/8<sup>th</sup> IC Track World Championship – and we will assure that the event is well run, well supported and well advertised.

For your accommodation choices, also driver's party and banquet dinner we have chosen the San Bernardino region in the North. This region is well known for winter- and summer sport and experienced in handling big tourism. We are sure that you will feel you very comfortable in this giant atmosphere of the Swiss alps and their leisure offers.

This report describes the concept of the organisational functions and the general proceeding of the event during 13<sup>th</sup> until 23<sup>rd</sup> August 2009. Besides this you will find information about accommodations and entertainments.

For sponsorship, advertisers and exhibitors please refer to the separate brochure "Sponsoring 2009".

If you have any questions please be kept informed on our main portal [www.rcworlds.ch](http://www.rcworlds.ch) and also on our single contact point [rcworlds@srcca.ch](mailto:rcworlds@srcca.ch). Your queries will be supported and answered in a short notice time.
